

PIANOS

YOU'LL BOTH Approve.

Of our Pianos from the very outside appearance alone, they look so handsome and attractive. But when you hear their sweet melody it will set you doubly longing to possess one of these magnificent, sweet-toned instruments.

We respectfully invite you to call and test their perfect musical qualities, knowing that the best critics give these Pianos the most praise. Our prices and terms cannot fail to be satisfactory to you.

OIL and GAS NEWS

Waterhorn No. 2 in 4-43 is setting the 8-inch casing at 500 feet.

The Producers Oil company in 10-43 is drilling at about 800 feet.

P. & H. Oil Company in 10-43 is drilling its No. 2 at about 500 feet.

Adkins, Conrad & Nichols are starting their fourth well on their lease in 9-43.

Rex Oil and Refining company is building a steel tank on the Rex No. 2 lease in 9-43.

Gunsburg & Forman have started a well in 6-43 and are building two rigs in 9-43.

Gates Oil company is starting its No. 4 in section 3-43, which is an offset to Twin State on the Roberts lease.

Thadde Baker of the Cleveland Casing crew came in from the fields yesterday afternoon. He will go to the northern portion of the state on a brief trip. Thaddy is learning to handle the well casing during the summer and expects to be back in high school this winter.

A deal is pending between the Rex Oil and Refining company and the Apple & Franklin Oil company in which the Rex people propose to take a drilling contract on the Apple & Franklin company's lease in the

southeast of 9-43. The deal has not been consummated yet.

The production of the Healdton field is now 55,551 barrels daily. There are about 218 producing wells, about 20 wells are drilling and ten new rigs are starting. If there had been no cessation of drilling the production would have been 100,000 barrels by this time.

There promises to be a large attendance of oil producers at the court house tomorrow morning at 9 o'clock when Commissioner Henshaw and the producers will meet George C. Greer of Dallas, general attorney for the Magnolia Pipe Line company. Mr. Greer called the meeting, and its object has not been stated.

Home Hinkle, secretary of the Coline Oil company, has returned from a visit to Virginia. Mrs. Hinkle did not return with him, but will remain longer with her parents. Mr. Hinkle says rain fell all the way from Virginia to Oklahoma, and it seems that the whole country has been given a soaking.

Apple & Franklin Oil company's No. 2 in the southeast of 9-43 is 50 feet in the first sand, and is showing up well. The top of the sand was reached at 300. This is an offset to one of the Rex wells, which is making 800 barrels, and the Apple & Franklin well promises to be equally as good. This company's No. 1 is making 200 barrels, and will do better when the gas pressure is out of the way.

Persons who came in from the fields yesterday afternoon state that the rainfall there was estimated at six inches, and that at least 50,000 barrels of oil were washed down the creeks leading from the oil fields. Several producers were asked about the loss and they were of the opinion that the amount had been over-estimated, but those in from the fields had had opportunity to observe, and are probably right in their estimate.

War Curtails Production.

Oklahoma City, Okla., Aug. 13.—G. E. Warren, state factory inspector, has just returned from a trip through the industrial section of the state adjacent to the oil and gas fields. He says that the curtailment of production by shutting down has been felt in the factories and that a number of plants are working short time as a result of that and the war in Europe. The latter has particularly affected the smelters. There are several hundred men less in the factories of Tulsa and Bartlesville as a result of the conditions mentioned.

Nation Facing Meat Famine.

Economic experts of the federal government are giving the high cost of living problem thoughtful consideration and are investigating the high prices of meat. The department of agriculture has just completed a census of the meat-producing animals of the United States and finds that there has been a decrease of 4,182,000 head and an increase of \$176,530,000 in value during the past year. On January 1, 1914, the herd numbered 144,507,000, compared with 148,690,000 head a year ago.

The bulk of the nation's decreased meat supply is in the swine herd. Compared with last year the number of hogs in the United States has diminished 2,185,000, cattle 175,000 head and sheep 1,763,000 head. The major portion of the increased values is credited to the beef animals. The value of all cattle, when compared with last year, exclusive of milk cows, shows an increase of \$166,688,000; swine have gained \$9,842,000 in value, while sheep have depreciated \$1,476,000.

Surgeon's Knife Restores Reason.

Greely, Colo., Aug. 14.—From a confirmed criminal, a thief and a burglar he declares, to an honest man, from a raving maniac to the sober light of reason within a brief hour of unconsciousness—this has been the experience of Jefferson Lee, yet in his twenties.

He was under the surgeon's knife bereft of reason and emerged from the anesthetic normal in every sense after a piece of splintered bone had been removed from his skull—a mere sliver that changed his life and made him respect himself and his fellowmen.

AMBASSADOR TO MEXICO

John F. Lamb of Terre Haute, Indiana Under Consideration by President Washington, D. C., Aug. 14.—The president is considering John E. Lamb of Terre Haute, Indiana for ambassador to Mexico.

Find Ring in Fish's Stomach.

Hillsboro, Ill., Aug. 13.—A two-pound bass, caught in Chautauqua Lake, by A. M. Howell, will be mounted and placed in Howell's den, because the bass was responsible for returning his two-carat diamond ring, lost while bathing.

While angling he caught the bass and ordered the fish for dinner. There was a commotion in the kitchen and Howell found his chief pinching himself to see whether he was asleep. "Massa Howell!" cried the excited negro, "dey-alls musta been a awful rich bass, as he had a diamun' ring in his bait basket."

Howell examined the ring and found it to be the one he had lost last year.

Delegates to Good Roads Congress.

Austin B. Fletcher, president of the American Road Congress, has written a letter to Governor Cruce, asking him to appoint as many as three delegates from each congressional district in the state to attend the sessions of the Fourth Congress, which convenes in Atlanta on the 9th of November. The letter to the governor has been forwarded to Sidney Suggs, state highway commissioner, with the request that names of road enthusiasts be suggested to him as a suggestion in making appointments. Mr. Suggs will submit a list of road advocates in each district regardless of politics, and from the list Governor Cruce will make the appointments.

Mr. Suggs has accepted a place on the program at the congress and it will be worth much to Oklahoma to be represented at that meeting.

Long Hours for Farm Laborers

Washington, Aug. 13.—The farm laborers of Oklahoma work on an average of 9 hours and 47 minutes per day, according to a report which has just been issued by the United States department of agriculture. There are 151,000 laborers employed on Oklahoma farms and the average monthly compensation is \$20 with board, and \$29.10 if the laborer boards himself. These figures relate to the year 1913. The average wage for farm labor in continental United States is \$13.85 per month with board and \$19.97 without board.

BOY IS KILLED BY TRAIN.

He Is Ground Under Wheels When He Falls Asleep on Track.

Tulsa, Okla., Aug. 13.—While asleep on the railroad track, Alfred Farrow, 18-year-old son of a Tulsa coal miner, was ground to pieces by a Frisco train at the edge of West Tulsa Tuesday night. Young Farrow and another boy had walked from Sapulpa to West Tulsa, a distance of fifteen miles, and had sat down on the railroad track to rest. Farrow fell asleep and his companion was unable to awaken him when he saw a train approaching.

LIGHTNING'S DEADLY WORK.

Two Dead and Five Others Seriously Injured.

Jackson, Okla., Aug. 13.—Two children were killed outright and five others seriously injured when lightning struck the school house here yesterday afternoon. The dead are the nine-year-old daughter of Dan Shaw, a farmer, and the twelve-year-old son of Mrs. Cook, a widow.

Those injured are the daughter of W. D. McClain, who received terrible burns on her body and is in a serious condition; son of Tom Desharzo, burned from the back of his head to his feet. His recovery is doubtful; Jim Moore, Mat White, and Stella Norman, burned more or less seriously on the legs and feet.

The lightning struck the belfry of the building and followed the chain attached to the bell. When the storm burst the teacher took the children into the entrance of the building, believing that the safest place, and forty of them were huddled together when the bolt of lightning struck. The wonder is that more were not killed. The two struck were standing with the others, and they were killed instantly.

Linebaugh Tenders Service.

Oklahoma City, Aug. 13.—In connection with the request from Governor Cruce to Attorney General West that he prosecute the violators of liquor and gambling laws in Tulsa, the latter has received an offer of assistance from D. H. Linebaugh, United States attorney for the eastern district. The attorney general has replied that he has asked the law enforcement people of Tulsa to send him their evidence, and statement of the situation, and that when he gets sufficient information he will proceed to the bringing of cases. He wrote to the federal attorney expressing his appreciation of the offer to help that has been made by the federal authorities.

Don't Trifle With Your Health!

—it is too precious a possession. It is trifling to neglect the little every-day kind of ailments. It is trifling, too, to take medicines of unknown or doubtful ingredients. If your stomach gets out of order, your food is not digested and, of course, your blood gets thin and you become weak, ready to be a prey to the disease germs always ready to attack the run-down and the anaemic. If your liver can't do its work, your blood becomes impure and many troubles follow. If your bowels are irregular, poisons accumulate in your body.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

(In Tablet or Liquid Form)

helps the stomach to digest food properly, strengthens the liver, regulates the bowels. As a consequence you are vigorous, full of snap and life! Forty years ago Dr. Pierce discovered that a glyceric extract of Golden Seal and Oregon grape roots, of queen's root and bloodroot with black cherry bark would aid all the digestive organs to work as Nature intended they should. Thousands have found that the Golden Medical Discovery he then introduced to the world has restored them to health when suffering from stomach and liver troubles. Now is the time for you to try this famous remedy and to secure for yourself a larger share of health and strength.

You can get the Golden Medical Discovery in tablet or liquid form from dealers in medicines—or send 50 one-cent stamps for a trial box of Dr. Pierce's tablets.

The knowledge you ought to have about your body—and to enable you to avoid sickness—you will find in Dr. Pierce's great book, The Common Sense Medical Adviser. Thousands of copies have been sold at \$1.50 each, but you can get a copy free if you will send 31 one-cent stamps merely to pay for the wrapping and mailing of the newly revised and up-to-date edition. Address: Dr. Pierce, Invalids' Hotel, Buffalo, N.Y.

Now a Well and Happy Woman

"I took La Grippe—had terrible pain in my side, and the doctor said one lung was affected," writes Mrs. S. Taylor, of Arnold, Kansas, Route 1. "I commenced using Medical Discovery. Was in bed five weeks. Had cold sweats and was like one who was dying. I did not think I would ever get strong again. I used Golden Medical Discovery for about five months, and now I am strong and have no cough of any kind. We used Dr. Pierce's medicines in the family for a number of years, but this winter I tried them myself and they are all that they are claimed to be. I cannot praise them enough, and hope anyone using these remedies will not give up. I often thought of doing so myself because I was so weak and discouraged but thanks to Dr. Pierce's family medicines I am a well and happy woman."

Mrs. Taylor
